Will we be able to see IDs that are blank in the MDP?

Good morning,

Attached is the map book and corresponding spreadsheet to identify the parcels.

Please let me know if there is anything else you need.

Best regards,

The map book and table can be accessed and downloaded by clicking the below download link:

The map book displays a map ID for subject parcels on each page. In some cases, certain larger parcels included a large number of APNs associated with the same piece of land. In those instances I labeled those APNs as a range, as you will see beginning on page 2 of the map book (example shown below).
